

# NTT Technical Review Coaster

The coaster is designed with an optical illusion.

Fraser spiral illusion

Follow the spiral line with a finger. Can you reach the center of the spiral?

Pinna illusion

Move the coaster back and forth. The graphic appears to be rotating, doesn't it?

## Why does this happen?

## Go to web for answer

Website where illusions can be experienced

### Illusion Forum

The website provides many examples of optical, audio, and other illusions as well as easy-to-understand explanations for the mechanisms (in Japanese).
